PROJECTS

Coral Reef Restoration Capstone | *Android Application*

May 2022

- Worked with a 5-person team to create a coral reef database solution for the Coral Restoration Foundation.
- Applied and used *Java* with the uses of OpenWeather and Meteomatics API to allow researchers out in the field ease-of-access and ease of entry to coral reef data.
- Applied agile practices such as the use of bi-weekly sprints, designing user stories, a lowfidelity prototype, and UML diagrams that include a class and sequence diagram.

Nihon Club Websites | *Webpage Application*

December 2021

- Designed two websites on the premise of using the Nihon Club at UNCC as the inspiration.
- Integrated and practiced various web development skills with JavaScript, HTML, CSS, and EJS to develop two different Nihon Club Websites.
- Collaborated with officers of the Nihon Club to implement ideas and features into the website's development.

Human Resources Employees | *Database Application*

July 2021

-
-

Junior Golf Coach Volunteer

June 2016 – June 2018

The First Tee of the Triangle

Raleigh, NC

- Participated in a professional environment as a junior coach to teach 100+ young first-tee participants core values, healthy habits, and valuable life skills by using golf.
- Collaborated with dozens of First Tee coaches and volunteers in First Tee events and weekly golf classes to create significant-quality relationships with First Tee participants.
- Selected as the junior volunteer of the year in 2017 for the shown impact and dedication to the First Tee of the Triangle chapter and participants around the Triangle.
